

Crete angle mixer

Weight(kg)	Height(mm)	Width(mm)	Length(m)	Hand arm vibration	Noise(db)
300	1150	970	1100	n/a	

EACH TIME BEFORE USING MACHINE

This machine should only ever be used by a trained and competent person.

Upon acceptance, please check the machine has in no way been damaged in transit and works, and each time prior to use. If you have any questions or doubts, please contact us, also in the event of breakdown or damage.

Please check that all safety mechanisms and switches are intact and working correctly.

Please check every day that all belts, bearings and moving parts are in good condition because this could lead to something breaking and causing injury.

Prior to using the mixer ensure that all paddles are set reasonably close to the sides of the drum to maintain an even mix and avoid leaving excess residue.

USING THE MACHINE

To start the machine, lift the lid then press the green button. Make sure that the emergency stop button is set to the 'out position' and close the lid. The machine will now engage. To load the machine, tip the ingredients into the grill on the top whilst the paddles are in motion. To empty the mixer, lift the lid and the paddles should stop automatically. Pull the handle down and tip the bucket down until empty. To stop the machine, press the off button. Keep all body parts away from the machine, when in use.

AFTER USING AND PRIOR TO RETURNING THE MACHINE

Please ensure that the machine is unplugged and kept in a safe place.

An off-hire will never be arranged at the beginning of the hire period. Please call the office and arrange collection as soon as you know when the machine/machines will no longer be required.

Please make sure the machine is returned in a fit and clean state to avoid charges.

If multiple machines are being collected, please have them placed neatly together, ready to collect because time may be charged if we have to search or wait for equipment. Items not available for collection will remain on hire and additional collection charges will apply. If the machine is to be collected by a carrier, please ensure it's strapped securely to the pallet using the straps that it arrived with and is left somewhere obvious and preferably arrange for someone to be responsible for supervising the collection.

All information above is provided for guideline purposes only. For more accurate and reliable information please refer to the manufacturer.
